What is the study about?

This survey is part of a Master's thesis in the Department of Criminology at Malmö University. It investigates how widespread **experiences of mistreatment and violence against women* during childbirth are in German hospitals.**

Participation in the survey is explicitly encouraged even if you have not experienced mistreatment or violence.

Participation is **voluntary**. All data collected will be treated with strict confidentiality and used exclusively for research purposes.

*including trans, intersex, and non-binary people who have given birth

Note: This survey includes questions about possible experiences of mistreatment and violence during childbirth. Dealing with this topic can be emotionally distressing. Please do not put yourself under any pressure and only participate if you feel emotionally comfortable doing so.
